

Suhas Babaso Ainapure

Mern Stack Developer

Mobile No: +91 7058293263.

Email: suhasainapure9052@gmail.com

Total Experience = 1 year

OVERVIEW

I am a motivated front-end developer with 1 year of experience, skilled in HTML5, CSS3, and JavaScript. I enjoy building responsive websites using Bootstrap and React.js. Quick to learn new tools like Typescript and Angular for dynamic UI development. Excited to grow further through real-world projects and team collaboration.

COMPETENCIES

FRONTEND DEVELOPMENT

- ♦ **HTML5 & CSS3:** Structuring and styling modern, semantic web pages
- ♦ **Bootstrap:** Rapid UI development with responsive, mobile-first components
- ♦ **JavaScript (ES6+):** Writing clean, modular, and efficient code with modern syntax
- ♦ **TypeScript:** Enhancing JavaScript with static typing for better scalability
- ♦ **React.js:** Building dynamic, component-based user interfaces
- ♦ **Angular:** Developing structured, enterprise-level single-page applications

BACKEND DEVELOPMENT

- ♦ **Node.js:** Server-side JavaScript runtime for scalable applications
- ♦ **Express.js:** Lightweight framework for building RESTful APIs and web servers

DATABASE

- ♦ **MongoDB:** NoSQL database for flexible, document-based data storage

EDUCATIONAL SUMMARY

- ♦ **Bachelor of Computer Application [First Class]** [2025]
Shivaji University, Kolhapur
- ♦ **Master in Computer Application – Perusing [First year]** [2025]
Indira Gandhi University, Pune

GRADUATION PROJECT

Name of Project: Voice Aided ATM System

Description: enables users to interact with ATMs using voice commands, enhancing accessibility and ease of use.

Environment: ASP.net 2019, My SQL

WORK EXPERINCE

Tecspeak IT Solutions Pune [April 2025 – Till Date] Project

Name –RankU1

Responsibilities:

- ◆ Develop responsive, scalable web applications using MongoDB, Express.js, React.js, and Node.js.
- ◆ Build modern UI/UX components using React.js and related tools.
- ◆ Develop RESTful APIs and integrate them with front-end components.
- ◆ Optimize application performance for speed and scalability.
- ◆ Work closely with project managers, tech-leads and stakeholders to understand requirements and deliver timely solutions
- ◆ Worked with team members using pull requests, code reviews, and issue tracking to streamline development
- ◆ Used Git for tracking code changes, branching, and merging to maintain clean project history.
- ◆ Maintain code quality through proper testing, debugging, and documentation.
- ◆ Participate in requirement discussions and contribute ideas for improvement and innovation.

DECLARTION

I hereby declare that the information furnished above is true to the best of my Knowledge and I hear the responsibility for the correctness of the above Mentioned information.
